Preventive Maintenance

Dyhydromatics Ensures that Your Equipment Stays in Peak Operating Condition

- Semi-annual, annual and multi-year Preventive Maintenance contracts (with training)
- Rapid response time for on-site or in-house repairs
- High quality parts in stock for ShearJet®, Microfluidics and Avestin processors
- Laboratory through production machinery

Aftermarket Parts

Dyhydromatics Provides OEM Quality or Improved Performance Parts for Less Downtime

- Dyhydromatics exclusive diamond Reaction Chamber® modules for repeatable results
- Designed and manufactured by Dyhydromatics
- HP piping and fittings (non-pharma and pharma grade with documentation)
- Seals, gaskets and elastomers (non pharma and Pharma grade USP Class VI with documentation)

Proof of Concept Testing

Try Your Product on Dyhydromatics Technology:

- On-site or at a Dyhydromatics field lab
- At a Dyhydromatics lab to receive a detailed written report
- Proof of Concept testing: Through our partners and a network of collaborators, we can help you with a Proof of Concept protocol.

Process Development and Consultation

We Can Help Integrate Your Formulation and GMP Processes Through Scale-up

- Pharmaceutical manufacturing
- Process development and characterization
- GMP process development
- Skid design and manufacture through our global partnerships

Installation and Training

Dyhydromatics Helps You Operate Effectively

- Standard with all ShearJet processor purchases
- Aftermarket operator and maintenance training
- Aftermarket system upgrades and improvements
- IQ/OQ, FAT and SAT qualification packages

FORCE BLUE is the only nonprofit organization in the world that provides "mission therapy" for former combat divers by retraining, retooling and deploying them on missions of environmental conservation, preservation and restoration. We are pleased to support FORCE BLUE by donating a portion of proceeds from every new equipment sale.
